Capability Statement

Company Overview

Semper Fi Services LLC is an SDVOSB federal supplier built on disciplined quality control, documentation accuracy, cybersecurity awareness, and audit-ready execution. **SFS supports DLA, DoD, prime contractor, and federal supply requirements** by sourcing aerospace, defense, and industrial components through verified suppliers, traceability-controlled documentation, packaging and marking awareness, and inspection-ready delivery. Our operating model is shaped by aviation quality assurance, federal construction quality control, supplier verification, traceability management, internal self-auditing practices, and the continued development of integrated quality and cybersecurity controls to reduce risk across federal and defense supply operations.

Core Competencies

- Traceability-controlled supply chain management
- Sourcing from approved manufacturers and authorized distributors
- Full traceable documentation packages (CoC, inspection, test data)
- FAR / DFARS-aware contract execution and documentation support
- Packaging and marking support aligned with applicable MIL-STD requirements
- Coordination of external testing and special processes
- Inspection readiness and documentation verification prior to delivery

Differentiators

- 9+ years of Marine Corps aviation experience, including 5+ years in quality assurance, flight-critical inspection, and airworthiness documentation.
- FAA-certified Airframe & Powerplant mechanic experience supporting aircraft maintenance, inspection, and technical compliance.
- Aviation quality assurance experience with HMLA-167, including inspection control, documentation review, and maintenance directive compliance.
- Federal construction quality control leadership experience, including Three-Phase QC, submittals, RFIs, inspections, and contract documentation.
- Federal project oversight experience on projects valued up to \$80M+, with responsibility for safety, quality, inspections, documentation, and contract compliance.
- OSHA 30, EM 385-1-1, NCCCO rigging, crane, and safety compliance background.
- Certified quality and safety leadership experience in high-risk aviation, construction, and federal contract environments.
- Lean Six Sigma and continuous improvement background, with experience managing maintenance programs, inspections, and engineering directives.
- Internal self-auditing mindset focused on documentation accuracy, supplier accountability, traceability control, and inspection-ready contract execution.

Company Data

Business Type: SDVOSB Certified
State of Incorporation: Arizona
UEI: TTJMSSU64V4
CAGE: 18PB5

NAICS Codes

423840 – Industrial Supplies Merchant Wholesalers
423990 – Other Misc. Durable Goods Merchant Wholesalers
488190 – Other Support Activities for Air Transportation

Quality & Compliance

AS9120-aligned processes (certification in progress)
Supplier verification procedures
Traceability and record retention controls
FAR / DFARS aware execution model
CMMC Level 2 readiness implementation in progress.
